# FLOW POP UP /

We transform spaces through light, bringing brands to life and showcasing products in unique, engaging ways.

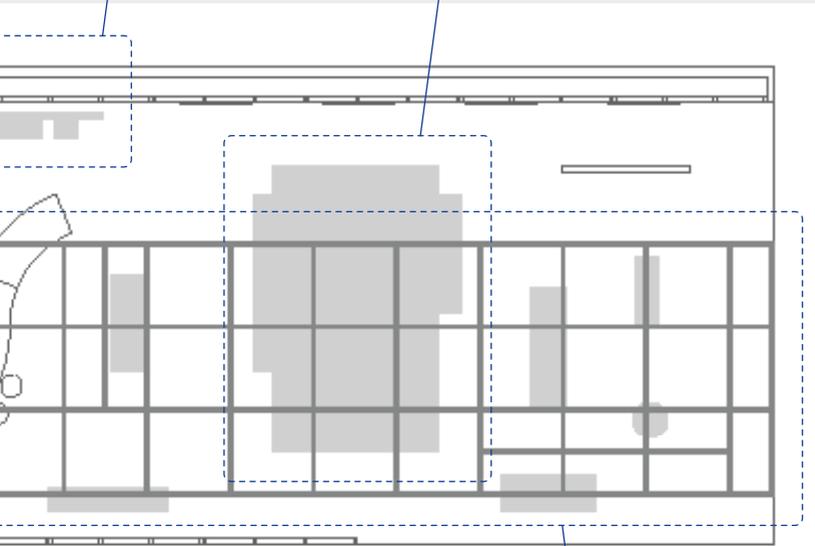

Combining deep expertise and a bespoke approach under the guiding theme “LIGHT & SPACE”, our Flow showroom at the Vitra Campus has been transformed into a walk-in immersive spatial concept. Here light and modular systems interweave to create a visionary experience.

FLOW demonstrates how light shapes spaces, provides orientation and stages products with precision. In response to changing consumer behaviors and the evolving retail landscape, we empower brands to foster customer loyalty and test innovative scenarios.

The POP-UP approach deals with our capability to co-design versatile configurations, that enable brands to connect with their audiences.

VERSATILE WALL SOLUTION

VISIBLY INVISIBLE PASSAGE

MULTIPLE SPACES. ONE SYSTEM

## WE MAKE YOUR PROJECTS SHINE

We deliver integrated spatial solutions for today and tomorrow experiences, through a comprehensive range of Light and Space solutions:

- Architectural and ceiling lighting
- Lighting for Showcases
- Lighting Panels: SEG, backlite panel and Lightbox
- LED strips, linear profile and all the related accessories
- Electrified Modular Systems
- Shelving and structural systems
- Drivers and controls for advanced lighting scenarios
- Dynamic lighting technology

# MULTIPLE SPACES. ONE SYSTEM /
